BRICOLAGE MISSION & VISION

We envision theater not as a passive experience, but as a vehicle for heightened involvement for artist and audience alike. By combining different artistic mediums, nourishing local talent, producing provocative work, and facilitating audience engagement, we seek to revitalize live performance for a new era.

The word Bricolage means “making artful use of what is at hand.” What excites us is the connection and interaction between seemingly disparate elements, and the potential for these components to resonate as one cohesive event. “What’s at hand” is Pittsburgh’s changing landscape, its plentiful human and material resources, and the salient political, cultural, and ethical issues we encounter and react to each day. Our approach encourages artists to take the creative risks necessary to create full-blooded, high-quality theatrical experiences that challenge audiences to engage in new ways, react, and express openly their opinions about our work – to have a stake in the creative discussion.

JEFFREY CARPENTER (Artistic Director and Founder) envisions theater not as a passive experience, but as a vehicle for heightened involvement for artist and audience alike. He conceived, produced and directed the Bricolage/Pittsburgh Filmmakers multi-media project In Service: Pittsburgh to Iraq, about the lives of local veterans returning from war, nominated for a Mid-Atlantic Emmy.
